

EmreLutfi

Front-End Developer

About Me

I am a 20-year-old software engineering student with over 5 years of self-taught experience in software development, fueled by a passion for learning and innovation. Throughout this journey, I have built around 30 diverse projects, showcased on my [GitHub](#), where I constantly explore and test new technologies.

I have been involved in a wide range of projects, from landing pages and dental service platforms to real estate applications and cryptocurrency solutions. Proficient in React, Next.js, TypeScript, and TailwindCSS, I excel in creating user-focused designs and scalable front-end architectures.

Professionally, I have contributed to mini e-commerce apps, prototype designs, and investment-oriented platforms, adapting quickly to new technologies and requirements. For me, software development is not just a career but a lifelong passion, and I am committed to advancing in this ever-evolving field.

Experience

Activate Earth / Front-End Lead

SEP 2024 – APRIL 2025

- Developed Activ8Earth, an interactive crypto coin platform where users earn money by daily interactions, using Next.js, React, TypeScript, and RainbowKit.
- Designed and implemented the landing page, integrated APIs with AWS, managed authentication via Cognito, and utilized Wagmi for state management.

Assa Tech / Front-End Lead

APR 2024 – OCT 2024

Delivered 10+ fully functional products, replicating Figma designs with precision in both appearance and functionality.

Took full ownership of the design-to-deployment process, including wireframing, prototyping, and testing.

Led the development of the Applicant Tracking System (ATS) project using React, TypeScript, and TailwindCSS, ensuring on-time delivery aligned with client expectations.

TurkStudentCo / Lead Front-End Developer

SEP 2024 – DEC 2024

Led the front-end development of education platform projects using Next.js and React, alongside Figma for design implementation.

Developed mini e-commerce applications by meeting project requirements and ensuring a seamless user experience.

User Metrics / Front-End Developer

FEB 2024 – AUG 2024

Built a mini e-commerce website with login and registration systems using React, Next.js, and TypeScript, ensuring it matched Figma designs perfectly.

Gained experience in corporate relations, software development, and manipulative marketing strategies essential for entrepreneurship.

inowhat / UX/UI Designer

MAR 2023 – JULY 2023

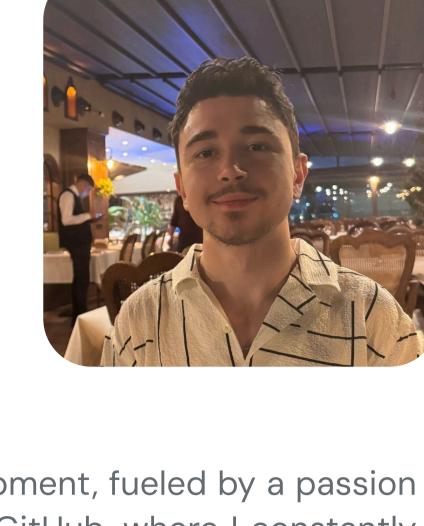

Designed Meditouch, an IoT device and app for real-time elderly care monitoring, using Figma for wireframes, prototypes, and user testing.

Created landing pages and tailored business plans to enhance customer value and drive sales.

Education

Toros University / Software ENG

2022 – Present

Academic Achievements

Turkcell / Geleceği Yazanlar Geleceği Yazanlar

2022

Javascript.js & React.js & CSS

California Institute of the Arts

2023

Visual Elements of User Interface Design

Skills & Languages

Skills:

Design & Prototyping: User Flows, Wireframes, Pixel Perfect Design, Motion Design, Design Systems, Style Guides

Development: Fresh Code, Next.js, React, React Native, TypeScript, RainbowKit, AWS, Cognito, Wagmi, Framer-Motion, Svelte

Design Tools: Figma, Adobe Illustrator, Adobe Photoshop

Testing & Analysis: User Testing, A/B Testing

Soft Skills: Strategic Thinking, Communicative, Detail-Oriented

Languages:

Turkish (Native)

English (B2)

DataFex / Front-End Developer

JAN 2021 – JAN 2024

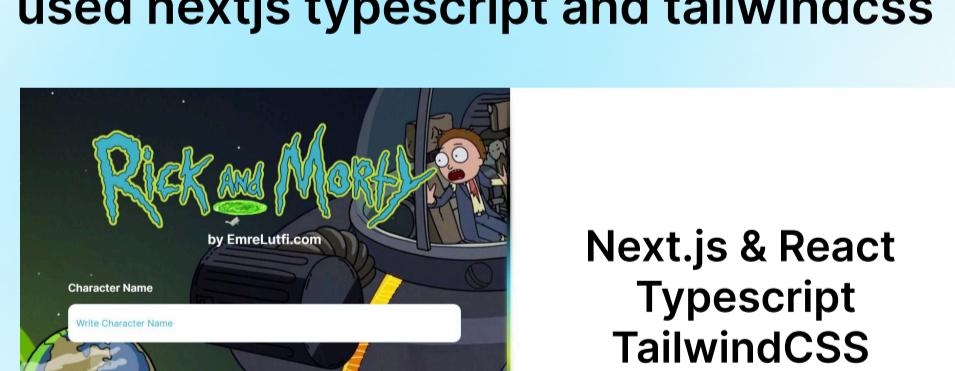

Developed a fully functional website from scratch using HTML, CSS, and front-end technologies, ensuring seamless user experience. Managed system administration tasks, including Plesk, vCenter, and WHMCS, for efficient website operations.

Enhanced skills in corporate relations, software development, and entrepreneurial marketing strategies.

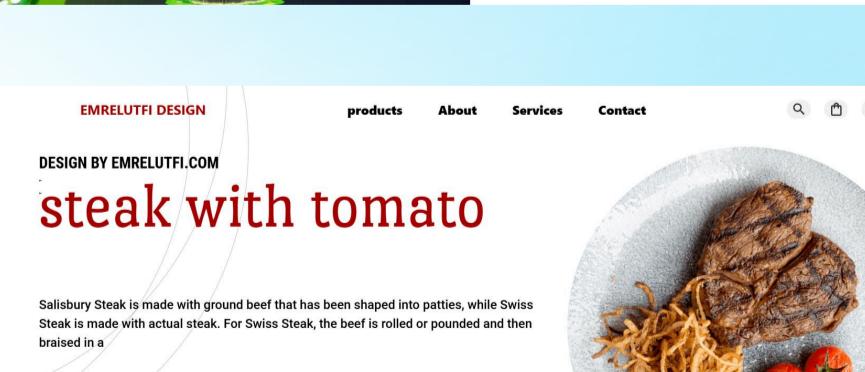

Front-End Developer & UI/UX Designer
